Back-grounds

Background colors should be customizable, using tones that either contrast with or complement the surrounding imagery to maintain visual balance and clarity. Subtle gradients can be incorporated to add depth and dimension, especially on more minimal or content-light pages.

Stickers

Illustrative stickers can add color, energy, and playfulness to the site, making the experience more vibrant and inviting. With fun, personality-driven slogans, they help express Oxnard's charm and coastal character.

Subtle animations bring them to life, creating a dynamic environment that encourages exploration.
